For over 25 years, the Norbec Group has been offering innovative, value-added solutions to its customers' needs. With the introduction in 2008 of the Norex® and Noroc® lines, Norbec Architectural now offers a complete range of solutions for building envelopes that combine advances in insulation with construction expertise.

### Why Norbec Panels

- Fast installation: fewer steps involved
- Can contribute to obtaining LEED certification for a project
- Elimination of thermal bridges
- No cavities or moisture penetration
- Superior structural anchoring system
